Detect Drugs 60% More of the Time with Hair

In a study of 250 donors providing blood, urine, oral fluid, and hair for drug testing, 67% of hair samples revealed undisclosed prescription and/or illicit drugs not detected in other matrices.

“Recently I had a defendant who has been on probation for several years with multiple negative urine drug tests who was actually positive for seven different drugs when tested with the instant STATHAIR test device. All instant results were confirmed by the Lab as positive. She admitted to relapsing and we are able to monitor her drug use. In many cases the STATHAIR test is what has guided us to determine exactly what treatment to offer a defendant to get them the proper help to aide in sobriety. I truly believe we are better able to supervise substance abuse problems by the use of the STATHAIR test”

Jessica Graham, Supervisor
Taylor County CSCD, Abilene TX
Welcome to the NAADAC 2023 Annual Conference!

As NAADAC’s President, I, the Colorado Association of Addiction Professionals (CAAP), and NAADAC’s partners welcome you to the 2023 Annual Conference. We are thrilled to be holding our conference in Denver!

#NAADAC2023 is an immersive educational experience that gathers together industry experts from across the globe. Our agenda is full of plenary presentations, workshops, panel discussions, poster presentations, and exhibitor opportunities that illuminate the latest innovations, best practices, trends, and issues that impact all addiction-focused professionals, address challenges, and advance the treatment of addiction and substance use disorders. I hope you will have the opportunity to connect, re-energize, learn, and celebrate alongside me and our fellow addiction professionals during these seven days of education, training, networking, and capacity building!

The conference isn’t all about learning, thank goodness. It is also about networking and having fun! As we do every year, we will be recognizing contributions to the addiction profession and outstanding achievement efforts in person at the President’s Awards Luncheon. You’ll also have plenty of time to network during breaks in the Exhibit Hall and the Welcome Reception on Friday night. I want to strongly encourage you to come to the NAADAC Education & Research Foundation (NERF) Auction on Sunday night for a chance to bid on a range of amazing items from across the globe and to listen to music! Join us for some networking and fun, all while supporting all of the important work funded by NERF. It is open to all! If you have seen Gerry Schmidt appearing as our MC and auctioneer at previous NERF events – you know why you need to attend!

The Exhibit Hall will be home to over 70 exhibitors featuring unique and cutting-edge products, services, and resources. I encourage you to put our exhibitors to work – asking what they have to offer that would help you and sharing with them your specific needs that have not been met to date in our industry. Attendees have the opportunity to win prizes from the exhibitors and NAADAC through its Exhibitor Passport Game! In addition, a new feature to this year’s Exhibit Hall is NAADAC’s Career Connect! In person and on our conference app, NAADAC’s Career Connect will give you the opportunity to find new job opportunities with exhibiting and sponsoring organizations. Learn more about this new opportunity on page 8 of this program!

The NAADAC Executive Committee and Board of Directors will be conducting live business meetings during the conference and will be available to assist you in any way they can. Please feel free to approach any of us while at the conference. We need to hear what you have to say – it is the only way NAADAC can meet the needs of those working on the front lines. As President, I personally hope to meet as many of you as possible, hear what you have been doing professionally, and learn what the needs are in your home states.

In closing, I would be remiss if I did not take the time to recognize and acknowledge all of the wonderful sponsors and exhibitors for their support of this year’s annual conference. We couldn’t have put it together without them, and I hope you are excited to meet with all of them! In addition, I want to recognize and thank the NAADAC Executive Director, Directors, staff, and volunteers for all of their hard work in putting this conference together on top of their already busy demands at the NAADAC office.

I sincerely hope that you thoroughly enjoy your experience at NAADAC’s reuniting conference! Acquire knowledge. Meet new people. Explore widely. Stay healthy and safe!

Angela E. Maxwell, PhD, CPS
NAADAC President
